DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 27, and 29-33 rejected under 35 U.S.C. 102(b) as being anticipated by Hanazaki et al. (US 6,880,541 B2).

3. Hanazaki et al. discloses a fuel supply assembly comprising: a vaporization tank (8) to vaporize an amount of fuel; an air conduit (3) to supply an amount of air to mix with the vaporized amount of fuel; and a controller (20) adapted to control a mixture of the vaporized amount of fuel and the amount of air to maintain a desired carbon level present in an amount of combustion exhaust. The fuel supply assembly further comprising an exhaust sensor (16) adapted to monitor the combustion exhaust for O₂ emissions and determines the presence of carbon content based on the O₂ emissions. The fuel supply assembly comprises a fuel controller for selectively providing the vaporized amount of fuel via control valve 10 and liquid fuel via injector 7 (plurality of valves) to a combustion chamber. The liquid fuel is a residual fuel, the residual fuel consisting of a portion of the amount of fuel.

Allowable Subject Matter

4. Claim 28 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Claims 35-42 are allowed.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
